

Setting up scan to network folder on Sharp MX Imagers to Macs.

11-19-2013

Submitted by Sharp and Rob Bussell (LOC)

Please see the PDF attachments (below). Please be aware that this is not officially supported by Sharp at this time but has been proven to work in testing.

We recommend the following method of scanning to Macs at this time: [Configuring Sharp MFPs to Scan to FTP on Macs](#) (not currently supported).
